SCP-5500

America's 1st "Walkie Talkie" Digital Camera Phone!

Take Digital Still Pictures or 15 second Video Clips. Catch the Excitement and Share it when it happens!

Technology

Dual Band/Tri-Mode... Supports digital 1.9 gigahertz / 800 megahertz, for even greater digital coverage. Supports 800 megahertz analog as well.

Fully Supports Sprint PCS Vision™... Send 15 second video clips, VGA quality photos, or download games, ringers and screen savers. Using the SANYO SCP-5500 with PCS Vision™ from Sprint, you'll get clarity you can see and hear.

Ready Link™... You push, you talk you're connected virtually anywhere to anywhere with Ready Link™ "walkie talkie" type service from Sprint and the SCP-5500 communication nationwide is as close as the press of a button.

Built-in Digital Camera... Catch the excitement when it happens! Take a 15 second video clip complete with audio, and instantly share the moment wirelessly. Snap images and instantly assign as a screen saver, caller id, or wirelessly upload and share the fun with others.

Upload Images to Sprint Pictures Account... Store pictures online for instant sharing to anyone, anytime. Fun Interactive tools let users unleash their creativity by applying comic book-type bubbles, festive cartoons, antique photos, and much more.

Record a 10-sec Voice Memo... A 10-sec Voice memo can be attached with video as well as with pictures.

Built-In Flash/Movie Light... Low light? No problem. Simply activate the ultrabright LED when taking still pictures, or filming video clips. The light can be set to act as a flash or remain on as a movie light.

Zoom Capability... Get up close and personal with the 1x, 4x, and even 16x zoom capability.

QuadScreen Thumbnail Picture Review... View images stored in the "In Camera," "Downloaded," and "Assigned" four at a time!

WAP 2.0 Browser... For "More Content" image support includes PNG, JPEG, BMP, and WBMP formats.

Java (J2ME MIDlet)... This allows the user to run program applications that can be downloaded wirelessly. Experience remarkably enhanced gaming applications, map images, and detailed reports.

Personalization

Photo/Ringer Caller ID, Wallpaper, and Game Content... Download various content such as Ringers, Images and even Java based games.

Pictures Taken by the SCP-5500... Assign pictures as Screen Savers or Photo caller ID. Also Ringers can be used for unique Ringer caller ID or Start-up/Power-off melody.

Photo Caller ID... Look who is calling! Snap a picture and synchronize the image with internal phone book entries so that assigned image shows in the display for incoming calls.

Download Images... Use as standby wallpaper or caller ID through Sprint's download service, or snap a picture and immediately assign it as a screen saver, or download from your PC using multimedia software.(sold separately)

Ringer Caller ID... Hear whose calling! Synchronize ringers with internal phone book entries so that a certain ringer sounds for incoming calls.

Download Ringers... Use for unique ringer caller ID or start-up melody through Sprint's download service, or from your PC using special software. (sold separately)

Polyphonic Ringers... Name that tune! Take the guess work out of downloaded ringtones. Recognize your favorite melody immediately with quality rich 32 chord polyphonic ringer capability.

Picture Storage... Store from 31 (High Quality) to 150 (Low Quality) of your favorite photos using the SCP-5500's internal picture memory. Images can be transferred to your PC via FutureDial's new SnapMedia software. (software sold separately)

Built-in Answering Machine... The SCP-5500 can act as a portable answering machine, allowing the user to listen in as the caller leaves a message; in addition the user is able to answer the call anytime while the caller leave their message.

The SANYO SCP-5500 has been designed especially for use with the digital Sprint PCS Nationwide Network and all of the services they offer.
